YIDARRA

1:1 iPad PROGRAM

2016

Device Requirements
Cyber Safety Protocol
It is important for all people reading this guide sheet to understand the impact cyber safety has on the students within our school and the way that we, as adults, need to conduct ourselves.
Please ensure that after reading this guide you;
Direct any questions directly to Yidarra administration,
Do not share any information on this guide on social media,
Discuss cyber safety with your child and make sure they know they can come to you if they have any worries about the iPad or activities online.

1:1 Device requirement
- Latest iPad Air 2 64GB WiFi
- iPad cover for iPad (suggested drop proof / scratch proof cover - for example Griffin Survivor cases)
- $50 iTunes gift card (used to pay for required apps)
- Extended AppleCare warranty

1:1 Parent Information session
- Thursday 28 January 2016 at 6pm
- School Library

Initial set-up & basic information pack

Tutorials on how to use the iPad
The following links will take you through some of the basics of using your iPad. Please ensure you are comfortable with using the iPad so that you are able to discuss any situations with your child.

Creating an iTunes Account
Click on the link below to create an Apple ID and follow the easy prompts to fill out your details.

Create an Apple ID
If you are having trouble with the system asking for a credit card, click on the link below

Creating an ID without a credit card

How to backup your iPad to iCloud and iTunes
The link below will give you instructions on how to backup your iPad to iCloud or iTunes on your home computer.

We suggest backing up to iTunes on a home computer as the 5GB limit on iCloud fills up quickly.

How to restore your iPad from iCloud and iTunes
The Backing up your iPad link also covers how to restore from a backup. You might need to restore your backup if you ever need to replace your child’s iPad or if it needs to be reset at any time.

Restoring your iPad from iCloud or iTunes

AppleCare details
We recommend buying the extended AppleCare warranty for your device as it covers hardware and software support for your child’s iPad. More details can be found in the link below.

App list for new iPads

We have requested that you purchase a $50 iTunes Voucher to cover the apps that require payment. Whilst the initial app list does not use up the entire value of the $50 voucher, there may be apps that are required during the year that will be taken out of this initial cost.

For an easy way to install these apps on your iPad, open this document on your iPad and click on each link.

Alternatively you can search for each app in the App store (Please note that you must match the app title exactly if you search for apps yourself).

Please note that some apps have purchases that can be made within the app. Please discuss with your child that they are not to make in-app purchases without approval from an adult.

Paid Apps
Mathletics Dictionary ($3.79)
Creative Book Builder ($4.99)
Explain Everything ($3.79)

Yidarra’s ICT Acceptable Use Policy

The link will take you to Yidarra’s ICT Acceptable Use Policy.

ICT Acceptable Use Policy

School Agreement for students

Students and parents will be required to read and sign a copy of the following Student Agreement. A copy will be sent home at the start of next year.

Student Agreement

Home Agreement

As students will be signing and adhering to an agreement at school, parents may choose to have a similar setup for use at home.

Listed below are some ideas that might help with the setting of terms for use at home.

1. Area of use in the house
2. Time of use for school work
3. Time of use for recreation after h/w is done
4. Where the device is kept after bed time
5. Eating and drinking near the device
6. Who is in charge of charging and backing up the device each night
7. What sites your child is allowed on (Please note that social media sites - Facebook, tumblr, twitter - have a minimum age that is usually 13 yo)

We highly recommend that there are strict rules on iPad use at home. Most importantly, students should not be using their device in an area that is unsupervised (this includes charging the iPad in the student’s bedroom overnight).
